WARRANT FOR DORR

Police Seek Broker on Train.

Charge of Embezzlement Is Made by San Francisco Operator.

Los Angeles Man Spends an Unpleasant Day With His Creditors.

Report of Tender of Notes Received of Joke; Makes Explanation.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Aug. 5.—[Exclusive Dispatch.] Speeding south in a Pullman car, Fred Dorr, clubman, lavish entertainer and stock operator in six cities, must face an arresting officer and a charge of felony embezzlement.

Dorr left this city on the 4 o'clock train for Los Angeles after an unsatisfactory day spent in listening to the claims of creditors. His protests and explanations failed to convince those to whom he owed money and at the hour he left town a warrant for his arrest was issued on the complaint of H. Norwood, a local broker, who charges Dorr with embezzling a hundred shares of common stock of Chicago, Milwaukee and St. Paul valued at \$14,000.

At San Jose the police were notified too late to intercept his flight at that city, and Dorr sat down for his dinner in the diner not knowing that the wire had already carried the order of his arrest to Los Angeles.

MAKES PROMISES.
B. G. Lathrop, manager of Dorr's San Francisco office, went to Sacramento Tuesday and met the head of the firm as he came from Denver on the Overland. Dorr was quietly taken to Lathrop's home in Mill Valley and the situation was thoroughly discussed. This morning Dorr and Lathrop came to the city and the news soon spread that the broker was ready to face his creditors. They talked over vigorously and Dorr answered them as best he could. He asked for time in which to straighten out his tangled affairs and he made promises that all his resources would be devoted to meeting his creditors on a dollar-for-dollar basis.

In brokers' circles this afternoon it was stated Dorr had tried to compromise with his creditors by tendering them promissory notes, which to those who have been following the career of the young broker, seemed to be more of a joke than a serious business proposition. It is gossip along Montgomery street that Dorr has no funds with which to meet the emergency and it is asserted that aside from his seats in different exchanges and a few personal trinkets, such as yachts and automobiles, he has nothing that can be converted into ready cash.

MEET BY ANGELENO.
Dorr, just before he left for Los Angeles, made a statement which was not particularly illuminating, although it left little doubt that Dorr was a ruined man. He complained bitterly because hot-headed persons were liable to cause him great trouble when if they had patience he would be able to pull out. He claimed to have arranged matters satisfactory with Norwood, Bray and Hook, which was untrue.

When Dorr arrived last evening, he found two Los Angeles brokers waiting his coming. W. T. Hook and Elmer M. Bray had come from the southern city to demand an explanation for his failure to account for \$60,000 in stocks which he had on their account. Norwood also wanted to know what he was to receive for the 100 shares of St. Paul which he had delivered to Dorr in May.

"Give me time and I will settle dollar for dollar," Dorr told them. "My arrest on the Hook and Bray took the situation and the Chicago Board of Trade are worth \$100,000, and I have other property. Everything will be all right."

PROMISES ARE FUTILE.
Promises failed to satisfy the creditors, and when they went to his Rush-street office in the afternoon and found the door locked, Norwood resorted to his own means. A few moments after they left, Dorr made a hurried visit to his office, stuck a bunch of papers in his traveling bag, and jumped on a car for the depot.

"I am going to see my creditors in Los Angeles," he told reporters as he boarded the train. "It is no small undertaking to close out so large a business, and I have to see every one, no matter how small the amount I owe them."

Instead of rushing to the Police Station to swear out a warrant for Dorr's arrest, Hook and Bray took the situation philosophically. They went back to their rooms at the St. Francis, packed their effects, and took the first train for Lake Tahoe, where they will join their families for a brief outing before returning to this city to continue the search for the missing securities and to join in the hue-and-cry after the man whose financial woes are daily growing deeper and deeper.

LOOKS DEAD.
"Dorr has some securities of our firm," said Bray finally. "There is no denying that. We asked him for them today, and he was unable to give us

NOTABLES ON FORCE.

Richard Harding Davis, A. C. Boswick, J. C. Thompson, Deputy Sheriff.

(BY DIRECT WIRE TO THE TIMES.)

WHITE PLAINS (N. Y.) Aug. 5.—[Exclusive Dispatch.] Richard Harding Davis, the author and playwright, now enjoys the distinction of being one of the deputy sheriffs under Sheriff Charles M. Lane of Westchester county.

The Sheriff's staff includes A. C. Boswick of the Standard Oil Company, J. Campbell Thompson, former general counsel for the Metropolitan Street Railway system, and Paul G. Thebaud, the importer.

Mr. Davis received his appointment today and immediately wired to the Sheriff from Marion, Mass., thanking him for the honor, and adding:

"I shall call to thank you personally and swear in. I hope to put the fear of the Sheriff into the hearts of all evildoers in Northcattle, if there are any."

Mr. Davis recently built a large bungalow in the town of Northcattle. Of late the neighborhood has been overrun by Black Hand men and frebids.

FIRM SUSPENDS.
ARREST BROKER.

ROBERT E. EASTMAN TAKEN IN CHICAGO WITH LARGE SUM.

Suspension Announced on Consolidated Stock Exchange and Situation Remains Uncertain Until President Is Brought Back With Books and Money.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, Aug. 5.—The suspension of the firm of Eastman & Co., stock brokers, was announced on the floor of the Consolidated Stock Exchange today.

Robert E. Eastman, head of the firm, was arrested in Chicago last night after A. A. Knowles, vice-president of the Mechanics' National Bank of New York, had gone to Chicago with evidence against Eastman.

Eastman said that his troubles were due to an overdraft of \$15,000 on the Mechanics' National Bank.

The New York police stated that John T. Garrison, the other member of the Eastman firm, told them that Eastman had taken \$15,000 from their office in Garrison's absence. At the offices of Eastman & Co. this afternoon the following statement signed by John Garrison was posted: "Robert Eastman left New York on July 22 in the absence of his partner and as already announced in the press was arrested in Chicago yesterday. He took with him the books of the firm and it is therefore impossible to give any accurate statement as to the firm's liabilities until Mr. Eastman returns to New York."

The firm has been doing a general brokerage business for about five years past. Last Saturday Mr. Garrison, who spent much of his time on the road selling securities and promoting enterprises in which the concern was interested, returned to New York to find that his partner had left the city during his absence. On the Consolidated Exchange it is stated the firm had done practically no business for two weeks and its accounts with members of the exchange had been closed.

RAIDS COTTON.

J. L. LIVERMORE BUYS UP ENTIRE NEW YORK SUPPLY.

Product Has Advanced Over \$3.50 a Bale During Past Two Weeks and Shorts Are Varying on a Panic—Report of Heavy Crop Caused Usual Depression.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Aug. 5.—[Exclusive Dispatch.] The entire supply of cotton stored in New York City and vicinity available for delivery on contract has been cornered by J. L. Livermore, the young broker, who last May made more than \$2,000,000 in a corner on the July option. The New York visible supply consists of only 25,000 bales of cotton worth about \$1,500,000.

During the last two weeks cotton has advanced in this market \$3.50 a bale and the shorts have been bordering upon a panic. An enormous quantity of October contracts have been sold short in New York, because of the general belief of the trade in reports from the cotton States that an enormous crop will be gathered. As a consequence prices in New York have been depressed far below the commercial value of cotton in the South.

The situation has been made all the more remarkable by the fact that the "cotton" union has secured pledges from nearly every planter in the south that he will not cut cotton prior to December below 10 cents a pound for seedlings.

Validity of Home Franchise Before Supervisors

Committees Refuse to Pass on Important Question.

Goes Back to Entire Board, Which Is Hostile.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Aug. 5.—(Exclusive Dispatch.) The judicial and public utility committees of the San Francisco Board of Supervisors refused today to pass on the validity of the franchise of the Home Telephone Company. The decision was reached this afternoon after the members of the joint committee had put in the entire afternoon listening to arguments in the matter of the petition of John M. Agar, who claims the franchise to apply to the Board of Supervisors for permission to change the franchise in the name of the State of California.

Mishap Calmly.Big Dirigible Behaves Ad-
mirably in Tests.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Aug. 5.—(Exclusive Dispatch.) Capt. Thomas Baldwin was today calm and collected in the face of the news of the disaster to the new Zeppelin airship. He said that the airship was in perfect condition when it left the ground and that the disaster was a tragedy.

The news of the Zeppelin disaster was received by Baldwin at the moment when he was in the air. He was flying at an altitude of about 10,000 feet and was in the process of making a landing. He was not alarmed by the news and continued his flight.

Two flights were made with the airship. The first flight was made at 10:30 a. m. and lasted for about 15 minutes. The second flight was made at 1:30 p. m. and lasted for about 20 minutes. Both flights were successful and the airship behaved admirably.

The airship was built by the Goodyear Aircraft Corporation and was the largest rigid airship ever built. It was 240 feet long and had a diameter of 42 feet. It was capable of carrying 30 passengers and 10 crew members.

The airship was built at the Goodyear plant in Akron, Ohio. It was the first rigid airship to be built in the United States since the disaster to the Graf Zeppelin in 1935.

WAITING WINGS.

WRIGHT PROMISES

TO FLY THIS WEEK.

[BY DIRECT WIRE TO THE TIMES.]

Incident, but it has leaked out that

there is a seat for a passenger be-

tween the driver and the motor and

overhead. Wright's machine will

be a high flyer. This is certain, for

the field where it will fly is surrounded

by high fir trees. Compared with the

Zeppelin, it is a small machine.

I may go tomorrow, perhaps Friday,

said Wright to your correspondent today. "I am still under the doctor's

care."

Late last night the aeroplane was

moved from its shed to the race course,

where it was hidden in another temporary

shed. The almost secret work was

employed and few people knew of the

move.

The next message received from the

Zeppelin was that a quantity of benzine

was being sent to the airship. The

explosion and that the great airship

was destroyed. After reading this

bulletin, the people moved in long

lines down the streets of the town to

the Zeppelin docks along the lake front

while automobiles hurried off in all

directions. Some of them even heading

for Echterdingen. The music of the

bells was heard and the musicians

began to play. The airship was

being taken down the flags and festoons

which had been hung in honor of

the daring aeronaut and his wonderful

invention.

COUNTESS IN TEARS.

[BY DIRECT WIRE TO THE TIMES.]

Just then the count's daughter arrived

in her carriage, who still lived in

ignorance of the end of her father's

voyage and of the blasting, at least

for a time, of his greatest ambition. A

hush fell over the masses as the

Countess alighted and in wonderment

at their strange attitude toward her,

she went inside her father's office.

Soon afterward she was heard to cry:

"That will kill him!"

GREATEST AIRSHIP ENDED
BY TERRIFIC EXPLOSION.

[BY DIRECT WIRE TO THE TIMES.]

STUTTGART, Aug. 5.—(Exclusive Dispatch.) A storm today the Zeppelin airship broke away from its moorings, took fire, and disappeared in the air. Several persons were injured. Count Zeppelin, however, is safe.

Count Zeppelin's airship descended on a plateau near the village of Echterdingen, five miles south of this city, shortly before 3 o'clock this morning, owing to a defect in one of the motors. After an examination of the machinery Count Zeppelin decided to send to Friedrichshafen for mechanics to make the necessary repairs. Two companies of grenadiers were sent to picket a space around the airship to keep off the crowd of villagers and people anxious to obtain a close view of the novel craft.

The airship exploded during a thunderstorm at 1 o'clock this afternoon. Previous to exploding it burst into flames. A fierce gust of wind tore the balloon from its anchorage and drove it in a westerly direction for some fifty yards. Here the rear end of the great fabric dropped and smoke and flames were seen to burst out from one end of the craft. Then in a few seconds came the explosion and great columns of flame shot upwards into the air. This was followed by the crashing down to the earth of the motors and frames that had been attached to the under side of the airship. Several bystanders were knocked down.

Two causes conspired to make it necessary to land the airship at Echterdingen, the overloading of the piston box of the forward motor, and the escape of considerable gas, owing to the fact that the Count took the airship to a height of about 6000 feet.

ECLIPSED ALL RECORDS.

[BY DIRECT WIRE TO THE TIMES.]

The Zeppelin airship had just completed the most remarkable voyage in the history of aerial navigation. It left the lake of Constance yesterday morning for a trip to Mayence and return. The flight was successful in a great many ways. The machine responded absolutely to the control of its pilots and was navigated over the lake of Constance, down the valley of the Rhine, over Strasbourg and several other cities and was expected back at Friedrichshafen in a few days.

The airship had been

devoted his life

to the development

of his airships. The

fact that he was

today was the fourth

he had constructed.

When his own money

had become exhausted,

the German Reichstag

voted him \$125,000 to

conduct further

experiments. The

German government

agreed to finance

this ship on condition

that it fulfilled certain

requirements, the

principal one being

that it remain in the

air twenty-four hours

and land on terra firma.

This stipulation had

not been fully

fulfilled.

WONDERFUL MACHINE.

[BY DIRECT WIRE TO THE TIMES.]

The airship was 425 feet long, with

a diameter of about 45 feet. It tapered

to a blunt point at the bow, while at

the stern were various rudders and

frames used in steering. It was fitted

underneath with two independent plat-

forms, each carrying a motor capable

of developing 160 horse power. As many

as sixteen passengers had been taken

on board at one time. Sleeping accom-

modations were provided for the crew,

and an apparatus was in-

stalled for the dispatch and receipt

of telegrams.

The inflating gas was distributed

among sixteen separate interior com-

partments, which were contained in

an envelope of aluminum. The accident

recalls the end of the French

military airship, Patrie, in December,

1907, which was then considered the

finest dirigible balloon in existence.

The Patrie was undergoing repairs to

her motor when a sudden

gust of wind struck the airship, and

the 200 men who were holding the

guide ropes were dragged along for

several hundred yards before they let

go. The balloon then shot up to a

great height, and disappeared. Five

days later the Patrie came down in

Ireland.

Count Zeppelin's airship passed over

Stuttgart city at 6:30 this morning.

The airship was in a southerly direction.

The enthusiasm of the country people

who watched the flight was indescribable.

The following message was dropped

from the airship:

"From Zeppelin's airship, above

Stuttgart, we send you our

best wishes for a successful

trip. Count Zeppelin."

THE PUBLIC SERVICE.

LAST CALL FOR LOWMAN'S GREAT

SUMMARY OF THE DAY.

The Police Commission, in another recent session, lasting half a day, discussed the suppression of the social evil. The City Attorney declared the concentration plan in this city. The commission is still in doubt. The jury trial of the suit of A. Lunnun against J. E. Moore and others, for forcible entry and detainer, began in Judge Conroy's court yesterday.

Miss Caroline A. Moore and Mrs. J. Mauphin, witnesses called by the defense, were cross-examined in the trial of the divorce suit of Mrs. J. E. May against W. A. May in Judge James' court.

Fred M. Pahl filed suit in the Superior Court against G. W. Heiner for alleged fraudulent warranty on a sale of dairy stock.

L. F. Fabian, 16 years old, pleaded guilty yesterday in Judge Jamison's court to a charge of uttering a worthless check, and was partially examined on his application for parole.

Mrs. Virginia Schubert, charged with having scattered decayed eggs over T. H. Dunning, was found guilty of a charge of disturbing the peace after trial yesterday before Justice Frederickson in Police Court.

POLICE BOARD STILL DOUBTS.

FEARS TO DISTURB PRESENT SEGREGATION SYSTEM.

Demand That "Redlight" District Be Destroyed Is Backed by the City Attorney in Another Star Chamber Session With Commissioners. Fuller's Case Considered.

Reviewing their method of handling the "social evil" for the past year and a half and the possibility of graft, the Police Commission spent another half day in secret session with the City Attorney in the Mayor's office yesterday. Although City Prosecutor Woolwine was ignored by the commission, his letter demanding that the law be enforced in the restricted region was the wedge that kept the subject open. Another meeting is to be held this afternoon.

Incidentally, the charges involving the name of Commissioner Charles H. Fuller were discussed. It is stated by Mayor Harper that Fuller offered at the beginning of the discussion to resign the commission of any endorsement by resigning.

The Mayor has not, he says, intimated to Fuller his resignation. Fuller is desired or that it was not his resignation would not be a surprise. In the meantime Fuller has sought to vindicate himself before the other commissioners by presenting four affidavits showing his freedom from culpability. They were presented yesterday afternoon. One was from the attorney who drew the contract of sale between Fuller and W. Cochrane of Fresno, an employee of the Fuller, for the property of Alameda street, in the use of which for immoral purposes Fuller's name became involved. This contract was executed in June, 1907, before Fuller had a commission, and provided for the payment of \$100 a month on the contract. This is said to have been the amount of rent paid by the occupants who were later out by the police after the exposure of the facts.

Two other affidavits were from the Fuller showing the property was transferred as shown by the contract, and the fourth was by Cochrane to the effect that Fuller was president of the company, which the Mayor is president and Commissioner Woodfill a director, was in similar use, was declared absolutely untrue, as the Southwestern company, the Fuller has a controlling interest in, both remote from the district under discussion.

Just what will be done when the commission resumes its star chamber sessions this afternoon the Mayor said he was not prepared to say. The commission is to discuss the method of the police, and some new plan of treating the social evil may be evolved, but of this the Mayor is doubtful, as he believes the present method of the police to be the best. This system includes segregation of the evil element in one district, registration of individuals at police headquarters, and other features now almost generally in use in American cities, as well as European.

This segregation or concentration of the evil resorts and characters was declared by City Attorney Hewitt at yesterday's session to be intolerable in Los Angeles, and arguments were, in effect, that the district where they have been permitted to establish themselves must be destroyed.

The Mayor says this means the scattering of the inmates throughout the city and the endangering of decent neighborhoods because of the inability of the police to follow the scattered population. The system now in use is condemned by the Mayor as a "hideous violation of the law. Many cities use the same system not only as a check on male and female criminals, but as a protection to the ignorant who may be lured to evil lives.

Other charges are that the system now in use opens the doorway to graft and graft is asserted to have appeared in the form of a syndicated arrangement to build the habitations at high rental and even to a high taxation on the admission of new inmates.

How true this graft story is the Mayor does not know, but if graft exists in any form he favors drastic measures to suppress it. That the police have cleaned the city as nearly as possible and confined its vicious characters to one district has, he inspired the rapidly, but he doubts if there is any official knowledge of graft or protection for it.

Police officials who have been watching the drift of events think they see a possible end to the question under discussion by the commissioners, as there have been complaints from the inside of the restricted district as well as from the outside.

AGAINST VEAL.

NO CHANGE IN ORDINANCE. A request from Young's market for a modification of the meat inspection ordinance so that veal freshly killed in Imperial Valley could be inspected here, interested the Health Board at its regular session yesterday afternoon. The modification asked meant the establishment of a depot where the veal carcasses would be placed, in case of long confinement in transit, in case the company was fined \$200.

misable. The board was unanimously opposed to a modification and Dr. Dickson even went further and said the use of veal was rather to be deprecated as he deemed it unwholesome food.

The board filed an additional sanitary inspection by appointing Night Inspector C. F. Lewis day inspector, and Manuel S. Carls was appointed from the eligible civil service list to the night inspection.

The Mayor Accepts. Mayor Harper received a committee from the German-American Alliance yesterday. The committee did not even mention the dance-hall ordinance as was guessed, but called to invite the Mayor to speak at the annual picnic of the alliance which is to be held Sunday, the 23rd inst. He accepted.

BITTER FIGHT OVER CITY LOT.

MAN WHO WAS EJECTED SEEKS TO GAIN TITLE.

Dispute Said to Have Sprung from Tax Sale Two Years Ago and Which Has Been in Higher Court, Is Again Before Jury—Contestant Once Won by Default.

One phase of the long standing controversy between A. Lunnun and J. E. Moore over the ownership of a 3000 corner lot at Mimosa and Seventh streets, came to an airing in Judge Conroy's court yesterday, when a jury heard evidence in Lunnun's suit against J. E. Moore and Tom Morris for forcible entry and detainer.

W. B. Judson, agent for Lunnun, testified that, in December, 1906, he had erected a tent on the lot which Lunnun had in the tent to retain possession of the lot. But the Morrises, he said, broke down the fence, hauled lumber on the lot, pulled down the tent, and dumped it and its occupant into the street.

"They told me to get off the lot or they would smash my face in," the witness said. "I got off the lot. The man who was sleeping in the tent, they pulled out of bed and put him on the lot. He went back twice and put off his case because they threatened violence. The Morrises certainly took possession by force."

The defendants deny that they used violence in taking possession of the lot, which Morris said was fenced and owned by Lunnun. They said they broke down the fence, hauled lumber on the lot, pulled down the tent, and dumped it and its occupant into the street.

The lad said he did not know why he passed the check, but that he needed the money to get to his home and believed that his father would stand for the amount he secured, as the check was drawn in his father's name. Testimony was given that young Fabian had a good previous reputation, and had never given his parents trouble. Examination was continued until Saturday.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

WATER RIGHT. J. A. Elms, Miss Minnie Chapman and Miss Charlotte Howell yesterday filed in the Superior Court a suit against J. Frank Ware to restrain him from drawing water for irrigation purposes from the left fork of Chiquito Canon, in alleged violation of the prior water rights of the plaintiffs. They assert they have put in a tunnel to develop the waters of the canon, under their water rights derived from the Federal government in 1885, and that Ware's water rights do not permit him to withdraw the water from above their intake.

WILL FILED. Walter F. Johnston, executor under the will of his mother, Mrs. Mary D. Johnston, who died in Los Angeles, leaving to her seven children an estate in personal property worth \$7,500, yesterday filed the will in the Superior Court for probate.

OIL LAND. Mrs. Susanna De Picot yesterday filed in the Superior Court a suit to restrain the West Coast Oil Company from developing oil on a 175-acre tract in the Rancho Rodeo de los Aguas. The plaintiff asserts that the defendant claims some right to the property and she asks that it be compelled to set forth this right in court and pay \$5000 damages for the development work already done.

ANNUALMENT. Mrs. Stella Bahwell yesterday filed suit in the Superior Court for the annulment of her marriage of January 4, 1905, to Hayden Bahwell. The plaintiff asserts that she was but little over 15 years of age when she married the defendant, and was without the consent of her guardian, as required by law, and that she is living separate from her husband.

MURDER CHARGE. Jacob Valter, charged with the murder of Joe Beaudry, yesterday filed a writ of habeas corpus to get him out of jail. He was arrested July 15, will be arraigned before Judge Jamison this morning. Valter's arraignment was postponed owing to the inability of his attorney, J. A. Sturges, to be present yesterday.

CRIMINAL LABEL. At the request of the defendant's counsel, Judge Sumnerfield yesterday continued until October 5, Fremont O'Brien's examination in the Superior Court, preferred by Luther Brown.

EMBEZZLEMENT ALLEGED. S. R. Stearns yesterday filed a writ of habeas corpus to get him out of jail. He was arrested July 15, will be arraigned before Judge Jamison this morning. Stearns' arraignment was postponed owing to the inability of his attorney, J. A. Sturges, to be present yesterday.

DISMISSAL. Owing to lack of jurisdiction and insufficient evidence, Judge Sumnerfield, on the District Attorney's motion, yesterday dismissed the charge of assault with a deadly weapon preferred by Andrew B. Nelson against Capt. John Elston and his wife, who were arrested in a fight on San Clemente Island July 24.

BEER FIGHT. John Gates, a negro, charged with severely cutting Charles Johnson, another negro, in a fight at First and Rose streets on Tuesday, was committed to the County Jail by Justice Selph yesterday on a charge of assault with a deadly weapon. Gates was under a \$5000 bail pending his examination August 17.

JOHNSON is at the Receiving Hospital with a wound in his side, while Gates is in the County Jail. The fight was said to have been caused by a dispute over a can of beer.

ELEVATOR JUMPED. P. J. Anderson, Courthouse janitor and occasionally operator of the outside Court elevator, took an examination and was licensed as an elevator operator yesterday by Supervisor Patterson's direction, as the result of a mishap on the elevator. Anderson, an inexperienced operator, took on a heavy carload of passengers and the valves became filled with air and the elevator jumped. Anderson was rescued by Supervisor Patterson, who was a passenger, brought the matter to Supervisor Patterson's attention, and a change of operators was made. Supervisor Patterson says the elevator is now safe and has just been inspected. Schwann is the Democratic aspirant for Patterson's job as Supervisor.

INCORPORATIONS. Articles of incorporation were filed yesterday with the County Clerk by Montgomery Bros., capital stock increased from \$100,000 to \$400,000; Claremont Realty Syndicate, capital stock \$25,000.

THE INFERIOR COURTS.

EGG THROWER FOUND GUILTY. Victim Testified That Defendant Had Called Him Names, Then Had Cracked the Decayed Poultry Over His Head—She Said He Bit and Choked Her.

Charged with having dropped decayed hen fruit upon L. H. Dunning, one of the proprietors of the Rosedale stables, Mrs. Virginia Schubert, 26 years of age, was convicted of a charge of disturbing the peace after trial before Justice Frederickson in Police Court yesterday.

Mrs. Schubert will be sentenced to six months in the county jail, and she says she does not care about the fine or sentence, and that if all women would give up vengeance to their enemies through the decayed route the world would be smoother for the fair sex.

With great glee, Mrs. Schubert described the incident in connection with the case, causing him to make many funny grimaces because of the awful odor. The irrepressible witness attempted to give the jury a picture of the case after trial before Justice Frederickson in Police Court yesterday.

The trial furnished amusement for many spectators. Dunning was the first witness. He testified reluctantly that he had been called a "d-d little shrimp," whereupon Mrs. Schubert looked him over contemptuously and then her head. The spectators were followed by an author of

SUICIDE ON BATTLESHIP FLEET.
Cross Word from Seaworth Causes Seaman of the Wisconsin to Drop Overboard.
WASHINGTON, Aug. 5.—[Exclusive Dispatch.] A cross word from his sweetheart, delivered to him in a letter while in mid-Pacific, it is believed, caused Seaman Albert E. Haisel, a member of the battleship Wisconsin's crew, to seek relief from his sorrow by dropping himself overboard. His disappearance was noted early on the morning of July 31. He got a letter from his sweetheart on the morning of July 31 which made him melancholy. A board to inquire into Haisel's disappearance came to this conclusion: All this came to the Navy Department today from Admiral Sperry, commander-in-chief of the Atlantic battleship fleet, due in Auckland, N. Z., August 8. It shows how nearly perfect are the means of communication established.

THINK HE WAS HAYES.
A careful search of the effects of "W. B. Hansen," the man who committed suicide at his lodgings, No. 1074 South Spring street last Monday, has led the police to believe that the man really was W. B. No reason for taking his life was known.

LEWIS UNDER MYSTERY.
The officers have received word from Lewis that he will not prosecute Houghton. The reason for the action is not plain, as the assault seemed to be a very aggravated one. Houghton was severely hurt. This is not the first time that Houghton has been in trouble. Four weeks ago he was in the Santa Fe striking hotelkeepers here and badly beating a deputy sheriff named Cummins. He is now employed as a hotelkeeper at the Santa Fe.

BATTLE CRY.
TARIFF,
CRIES PARKER.Distinguished Democrat Says
It's Way to Win.Song for Bryan and Kern
at Local Love Feast.Lancey Nicoll Helps at
Evening Meeting.

Former Judge Alton B. Parker, late of the New York State Court of Appeals, Democratic candidate for President in 1904, pledged his "loyal" support to the tariff at a mass meeting in the Auditorium last night under the auspices of the Democratic League.

This pledge called forth the greatest enthusiasm of the meeting and was greeted with wild cheers and the waving of flags. It marks the first time since the tariff was passed that the tariff has been so warmly received by the people of the United States.

Parker was followed on the platform by Delancey Nicoll, his campaign manager of 1904, who gave four reasons why the people of this country should vote for Bryan and Kern. His first was the tariff, which he said was the backbone of the Democratic party; his second was the tariff, which he said was the backbone of the Democratic party; his third was the tariff, which he said was the backbone of the Democratic party; his fourth was the tariff, which he said was the backbone of the Democratic party.

AT BOILING POINT.
The main body of the audience was at the boiling point when Parker spoke. He was met with a storm of applause and the cheering was so loud that the speaker had to raise his voice to be heard. He spoke for nearly an hour, and his speech was so well received that he was called back to the platform several times.

BOUQUET FOR US.
A distinguished speaker devoted time to his expressions of enthusiasm for the tariff. He spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party. He spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party.

FOUNDED FOR TRUSTS.
During the last few years we have heard a great deal of corporation talk, but my fellow-citizens, has it occurred to you that they did not tear down this wall, they who have built it? They have built it for the purpose of protecting the interests of the few against the interests of the many.

HOW THEY DID IT.
Mr. Parker spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party. He spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party.

Mr. Parker spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party. He spoke of the tariff as the backbone of the Democratic party, and of the tariff as the backbone of the Democratic party.

relations between business and the government shall cease.

Chairman Trask told the audience that they had listened to one of the greatest and most important political speeches ever delivered in this city, and asserted that it would prove to be the battle cry for the Democracy.

Then he introduced Mr. Nicoll, who paid a glowing tribute to Los Angeles and Southern California, and said he believed the marvelous growth and prosperity of the section were due to the character of its citizens.

He said there had been differences in the Democratic party, and the Democrats of the East had differed with their brethren of the West, but they had fought it out and had now come together.

"Your great leader in 1904 supported Parker, so Alton B. Parker and his friends now support Bryan," (Applause and cheers.)

Then he followed with his four reasons for supporting the Democratic ticket.

Although Mayor Harper was named as a vice-president of the meeting, he was not on the platform, but sat in a box and did not join in the reception to Parker.

The legs were wrapped in a newspaper with part of the shirt bearing the initials "C. C." and at that time were supposed to be those of a young woman.

MURDERED BOY MUTILATED.

Growsome Mystery in Finding of the Remains in Chicago Stock Yards District.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, Aug. 5.—A gruesome murder mystery that promises to be one of the most baffling with which the police have had to deal in some time was developed today in the discovery of the dismembered body of a boy in what is known as "Mud Lake" in the stock yards district.
